

## **GOALS AND OBJECTIVES**

### **Student Achievement**

The School Board recognizes that the key work of school boards is to establish and promote a clear vision of student achievement as the top priority of the district. Student achievement will be defined by the district and include but not be limited to, assessment results, student attendance and drop-out rates, graduation rates, and percentages of students earning certificates of completion and diplomas based on the high school graduation qualifying examination.

The superintendent will ensure development and implementation of a comprehensive, collaborative planning process that engages the school community in the district's continuous student achievement improvement program efforts to achieve the district's vision and mission.

The district's program will be consistent with the Alaska Department of Education and Early Development requirements for content standards and high school graduation.

The School Board will, in striving for continuous improvement of student achievement, annually review district and individual school data on student achievement, prioritize, allocate and realign resources as necessary.

The superintendent will develop administrative regulations as needed to implement this policy.
