

**SCHOOL CLOSURE**

The superintendent is empowered to close any or all district schools under circumstances that jeopardize the safety and welfare of students. In such circumstances parents and the community will be notified through the public media and procedures will be implemented for the safe return of students to their homes.

Emergency school closings and/or the non-operation of school buses due to severe conditions will be announced to the community as soon as possible.

The Alaska Department of Education will be notified of all “emergency closure days.”
